Allowable Subject Matter

1. Claims 1-9, 11-16 and 18-24 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - None of the prior art teaches a roller which is as a whole driven across a surface to impart a microstructure thereon. The closest prior art Okubo et al. (US 5,480,596) teaches a roller which imparts a microstructure onto a surface, however it is the surface itself which is driven. While Gregg (US 2004/0265058) teaches a roller which is drivable on a surface, Gregg does not teach applying a microstructure or enhancing curing by an associated curing device.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
